Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means SCAN Health Plan New Mexico. When it refers to “plan” or “our plan,” it means SCAN Classic (HMO), SCAN Balance (HMO C-SNP), SCAN Heart First (HMO C-SNP) and SCAN Strive (HMO C-SNP).

This document includes a list of the drugs (formulary) for our plan which is current as of March 2024. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2025, and from time to time during the year. You will receive notice when necessary.

You can get prescription drugs shipped to your home through our network mail-order delivery program. Express Scripts PharmacySM is one of our mail order pharmacies. You can fill your prescription medications at any of our network mail order pharmacies. Typically, you should expect to receive your prescription drugs within 14 days from the time that Express Scripts mail-order pharmacy receives the order. If you do not receive your prescription drug(s) within this time, please contact SCAN Health Plan New Mexico’s Member Services. For your mail order prescriptions, you have the option to sign up for an automatic refill program by contacting Express Scripts Pharmacy at 1-866-553-4125, 24 hours a day, 7 days a week. TTY users should call 711. You may opt out of automatic deliveries at any time.

SCAN Health Plan New Mexico is an HMO plan with a Medicare contract. Enrollment in SCAN Health Plan New Mexico depends on contract renewal.

What is the SCAN Health Plan New Mexico Formulary?

A formulary is a list of covered drugs selected by SCAN Health Plan New Mexico in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. SCAN Health Plan New Mexico will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a SCAN Health Plan New Mexico network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand-name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the SCAN Health Plan New Mexico’s Formulary?”
- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to the market to replace a brand-name drug currently on the formulary, or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.
 - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the SCAN Health Plan New Mexico’s Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of March, 2024. To get updated information about the drugs covered by SCAN Health Plan New Mexico, please contact us. Our contact information appears on the front and back cover pages.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 22. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page number 22. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 59. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

SCAN Health Plan New Mexico covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** SCAN Health Plan New Mexico requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from SCAN Health Plan New Mexico before you fill your prescriptions. If you don't get approval, SCAN Health Plan New Mexico may not cover the drug.
- **Quantity Limits:** For certain drugs, SCAN Health Plan New Mexico limits the amount of the drug that SCAN Health Plan New Mexico will cover. For example, SCAN Health Plan New Mexico provides 30 tablets per prescription for BELSOMRA. This may be in addition to a standard one-month or three-month supply.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 22. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online a document that explain our prior authorization restriction. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask SCAN Health Plan New Mexico to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the SCAN Health Plan New Mexico’s formulary?” on page 5 for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that SCAN Health Plan New Mexico does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by SCAN Health Plan New Mexico. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by SCAN Health Plan New Mexico.
- You can ask SCAN Health Plan New Mexico to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the SCAN Health Plan New Mexico’s Formulary?

You can ask SCAN Health Plan New Mexico to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, SCAN Health Plan New Mexico limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, SCAN Health Plan New Mexico will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier, or utilization restriction exception. **When you request a formulary, tier, or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber’s supporting statement. You can request an expedited (fast)

exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply if you are not in a long-term care facility or a 31-day supply if you are a resident of a long-term care facility. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication if you are not in a long-term care facility or a 31-day supply of medication if you are a resident of a long-term care facility. After your first 30-day supply if you are not in a long-term care facility or a 31-day supply if you are a resident of a long-term care facility, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you are a current member transitioning to a different level of care, you may be prescribed medications not on our formulary or your ability to get your drugs may be limited. In these instances, you need to talk with your doctor about the appropriate alternative therapies available on our formulary. If there are no appropriate alternative therapies on our formulary, you or your doctor can request an exception and ask the plan to cover the drug or remove restrictions from the drug. While you are talking with your doctor to determine the course of action, you are eligible to receive a 30-day transition supply of the drug if you are moving from a long-term care facility or a hospital stay to home or a 31-day transition supply of the drug if you are moving from home or a hospital stay to a long-term care facility.

¿Qué es el formulario de SCAN Health Plan New Mexico?

Un formulario es una lista de medicamentos cubiertos elegidos por SCAN Health Plan New Mexico con el asesoramiento de un equipo de proveedores de atención médica, que representa las terapias con medicamentos con receta que se consideran una parte necesaria de un programa de tratamiento de calidad. Por lo general, SCAN Health Plan New Mexico cubre los medicamentos que aparecen en nuestro formulario siempre y cuando el medicamento sea médicamente necesario, la receta se surta en una farmacia de la red de SCAN Health Plan New Mexico y se respeten las demás normas del plan. Para obtener más información acerca de cómo surtir las recetas, revise la Evidencia de cobertura.

¿Puede el Formulario (lista de medicamentos) cambiar?

La mayoría de los cambios en la cobertura de medicamentos se realizan el 1 de enero, pero podemos añadir o retirar medicamentos de la lista de medicamentos durante el año, pasarlos a diferentes niveles de gastos compartidos o añadir nuevas restricciones. Debemos seguir las normas de Medicare a la hora de hacer estos cambios.

Los cambios que pueden afectarle este año: en los siguientes casos, se verá afectado por cambios los de cobertura durante el año:

- **Medicamentos genéricos nuevos.** Podemos retirar de inmediato un medicamento de marca de nuestra Lista de medicamentos si lo reemplazamos por un nuevo medicamento genérico que aparecerá en el mismo nivel de gasto compartido o en uno menor y con las mismas restricciones o menos. Además, al añadir el nuevo medicamento genérico, podemos decidir mantener el medicamento de marca en nuestra Lista de medicamentos, pero cambiarlo de inmediato a un nivel de gastos compartidos diferente o añadir nuevas restricciones. Si actualmente toma ese medicamento de marca, es posible que no informemos por adelantado que haremos ese cambio, pero luego le brindaremos información sobre los cambios específicos que hemos hecho.
 - Si implementamos dicho cambio, usted u otra persona autorizada a dar recetas pueden solicitarle al plan que realice una excepción y siga cubriendo el medicamento de marca para usted. El aviso que le proporcionaremos también incluye información sobre cómo solicitar una excepción, y puede encontrar información en la sección a continuación, titulada “¿Cómo solicito una excepción para el Formulario de SCAN Health Plan New Mexico?”
- **Medicamentos retirados del mercado.** Si la Administración de Alimentos y Medicamentos (FDA) considera que un medicamento de nuestro formulario es inseguro o si el fabricante del medicamento retira el medicamento del mercado, inmediatamente retiraremos el medicamento de nuestro formulario y les proporcionaremos un aviso a los miembros que toman el medicamento.
- **Otros cambios.** Podemos realizar otros cambios que afecten a los miembros que toman actualmente un medicamento. Por ejemplo, podríamos añadir un medicamento genérico que no sea nuevo en el mercado para reemplazar un medicamento de marca que figure actualmente en el formulario, o añadir nuevas restricciones al medicamento de marca o moverlo a un nivel de gastos compartidos diferentes, o ambas opciones. O bien, podemos realizar cambios según nuevas pautas clínicas. Si retiramos medicamentos de nuestro formulario, o agregamos una autorización previa, límites de cantidad o restricciones de terapia escalonada a un medicamento o si movemos un medicamento a un nivel de gastos compartidos más alto, debemos notificar a los miembros afectados sobre el cambio, al menos 30 días antes de que el cambio esté vigente, o cuando el miembro solicite un resurtido del medicamento, en cuyo momento el miembro recibirá un suministro del medicamento para 30 días.

- Si implementamos estos cambios, usted u otra persona autorizada a dar recetas pueden solicitarle al plan que realice una excepción y siga cubriendo el medicamento de marca para usted. El aviso que le proporcionaremos también incluye información sobre cómo solicitar una excepción, y, además, puede encontrar información en la sección a continuación, titulada “¿Cómo solicito una excepción para el Formulario de SCAN Health Plan New Mexico?”

Cambios que no le afectarán si actualmente está tomando el medicamento. Por lo general, si toma un medicamento que se encuentra en nuestro formulario de 2024 que estaba cubierto al comienzo del año, no descontinuaremos ni reduciremos la cobertura del medicamento durante el año de cobertura 2024, excepto en los casos que se describieron anteriormente. Esto significa que estos medicamentos permanecerán disponibles con los mismos gastos compartidos y sin nuevas restricciones para aquellos miembros que los tomen durante el resto del año de cobertura. No recibirá un aviso directo sobre los cambios que no le afecten este año. Sin embargo, dichos cambios podrían afectarle a partir del 1 de enero del año siguiente, y es importante que revise la Lista de medicamentos del nuevo año de beneficios para ver los cambios.

El formulario adjunto está vigente desde marzo de 2024. Para obtener información actualizada acerca de los medicamentos cubiertos por SCAN Health Plan New Mexico, comuníquese con nosotros. Nuestra información de contacto aparece en las páginas de portada y contraportada.

¿Cómo uso el Formulario?

Existen dos maneras de buscar un medicamento dentro del formulario:

Afección médica

El formulario comienza en la página 22. En este formulario, los medicamentos se dividen en categorías según el tipo de afección médica que tratan. Por ejemplo, los medicamentos usados para tratar una afección cardíaca se indican en la categoría “Agentes cardiovasculares”. Si sabe para qué se usa un medicamento, busque el nombre de la categoría en la lista que comienza en la página número 22. Luego busque el nombre del medicamento debajo del nombre de la categoría.

Orden alfabético

Si no sabe en qué categoría buscar, debe buscar el medicamento en el Índice que comienza en la página 59. El Índice le proporciona una lista en orden alfabético de todos los medicamentos incluidos en este documento. Tanto los medicamentos de marca como los medicamentos genéricos figuran en el Índice. Consulte el Índice y busque su medicamento. Al lado de medicamento, verá el número de página en donde puede encontrar la información de cobertura. Vaya a la página que figura en el Índice y busque el nombre del medicamento en la primera columna de la lista.

¿Qué son los medicamentos genéricos?

SCAN Health Plan New Mexico cubre medicamentos de marca y genéricos. La Administración de Alimentos y Medicamentos (FDA) aprueba un medicamento genérico cuando considera que contiene el mismo ingrediente activo que el medicamento de marca. Por lo general, los medicamentos genéricos cuestan menos que los de marca.

¿Existe alguna restricción en mi cobertura?

Algunos medicamentos cubiertos pueden tener requisitos o límites adicionales en la cobertura. Estos requisitos y límites pueden incluir:

- **Autorización previa:** SCAN Health Plan New Mexico requiere que usted o su médico/a obtengan una autorización previa para determinados medicamentos. Esto significa que deberá obtener la aprobación de SCAN Health Plan New Mexico antes de surtir sus medicamentos con receta. Si no obtiene la aprobación, es posible que SCAN Health Plan New Mexico no cubra el medicamento.
- **Límites de cantidad:** Para determinados medicamentos, SCAN Health Plan New Mexico limita la cantidad del medicamento que cubrirá SCAN Health Plan New Mexico. Por ejemplo, SCAN Health Plan New Mexico proporciona 30 comprimidos por receta para BELSOMRA. Esto puede ser un surtido adicional al suministro estándar de un mes o de tres meses.

Puede averiguar si su medicamento tiene algún requisito o límite adicional buscando en el formulario que comienza en la página 22. También puede obtener más información sobre las restricciones que se aplican a los medicamentos cubiertos específicos en nuestro sitio web. Hemos publicado un documento donde se explica nuestra restricción de autorización previa. Además, puede solicitarnos que le enviemos una copia. Nuestra información de contacto, junto con la fecha de la última actualización del formulario, aparece en las páginas de portada y contraportada.

Puede solicitar a SCAN Health Plan New Mexico que realice una excepción para estas restricciones o estos límites o para una lista de otros medicamentos similares que puedan tratar su afección médica. Consulte la sección, “¿Cómo solicito una excepción para el formulario de SCAN Health Plan New Mexico?” en la página 15 para obtener información sobre cómo solicitar una excepción.

¿Qué sucede si el medicamento que necesito no se incluye en el Formulario?

Si el medicamento que necesita no está incluido en este formulario (lista de medicamentos cubiertos), primero debe comunicarse con Servicios para Miembros y preguntar si su medicamento está cubierto.

Si le informan que SCAN Health Plan New Mexico no cubre su medicamento, tiene dos opciones:

- Puede solicitar a Servicios para Miembros una lista de medicamentos similares que estén cubiertos por SCAN Health Plan New Mexico. Cuando reciba la lista, muéstresela a su médico/a y pídale que le recete un medicamento similar que esté cubierto por SCAN Health Plan New Mexico.
- Puede pedirle a SCAN Health Plan New Mexico que realice una excepción y cubra su medicamento. Consulte a continuación para obtener más información sobre cómo solicitar una excepción.

¿Cómo solicito una excepción para el Formulario de SCAN Health Plan New Mexico?

Puede solicitar a SCAN Health Plan New Mexico que realice una excepción en nuestras normas de cobertura. Existen diferentes tipos de excepciones que puede pedirnos que hagamos.

- Puede pedirnos que cubramos un medicamento incluso si no figura en nuestro formulario. Si se aprueba, este medicamento estará cubierto a un nivel de gastos compartidos predeterminado y no podrá pedirnos que proporcionemos el medicamento a un nivel de gastos compartidos inferior.

- Puede pedirnos que cubramos un medicamento del formulario a un nivel de gastos compartidos más bajo, a menos que el medicamento se encuentre entre los medicamentos de especialidad. Si se aprueba, esto disminuiría el monto que debe pagar por su medicamento.
- Puede pedirnos que no apliquemos restricciones o límites a la cobertura del medicamento. Por ejemplo, para ciertos medicamentos, SCAN Health Plan New Mexico limita la cantidad del medicamento que cubriremos. Si su medicamento tiene un límite de cantidad, puede pedirnos que no apliquemos el límite y que cubramos un monto mayor.

Por lo general, SCAN Health Plan New Mexico solo aprobará su solicitud de una excepción si los medicamentos alternativos incluidos en el formulario del plan, el medicamento con menor gasto compartido o las restricciones de uso adicionales no resultaran tan eficaces a la hora de tratar su afección o provocaran efectos médicos adversos.

Debe comunicarse con nosotros para solicitarnos una decisión de cobertura inicial de un formulario, nivel o excepción de restricción de uso. **Cuando solicite una excepción de un formulario, de un nivel o de restricción de uso, debe enviar una declaración de la persona autorizada a dar recetas o médico/a apoyando la solicitud.** Por lo general, debemos tomar una decisión en un plazo de 72 horas después de recibir la declaración de apoyo de su recetador. Puede solicitar una excepción acelerada (rápida) si usted o su médico/a creen que su salud podría ser perjudicada gravemente al esperar hasta 72 horas por una decisión. Si se concede su solicitud de apelación acelerada, debemos comunicarle una decisión en un plazo máximo de 24 horas después de recibir una declaración de apoyo de su médico/a u otro recetador.

¿Qué hago antes de poder hablar con mi médico/a sobre cambiar de medicamentos o solicitar una excepción?

Como miembro nuevo o actual de nuestro plan, es posible que esté tomando medicamentos que no estén en nuestro formulario. O bien, puede estar tomando un medicamento que sí está en nuestro formulario, pero su capacidad para obtenerlo es limitada. Por ejemplo, es posible que necesite una autorización previa de nuestra parte antes de que pueda surtir sus medicamentos con receta. Debe hablar con su médico/a para decidir si debe cambiar a un medicamento adecuado que cubramos o solicitar una excepción para el formulario para que cubramos el medicamento que toma. Mientras habla con su médico/a para determinar el curso de acción correcto para usted, podemos cubrir el medicamento en ciertos casos durante los primeros 90 días tras convertirse en un miembro del nuestro plan.

Para cada uno de los medicamentos que no están en nuestro formulario o si su capacidad para conseguir el medicamento es limitada, cubriremos un suministro temporal para 30 días si no se encuentra en un centro de atención médica a largo plazo o un suministro para 31 días si es residente de un centro de atención médica a largo plazo. Si su receta está escrita por menos días, permitiremos resurtidos para proporcionar un suministro máximo de medicamentos para 30 días si no se encuentra en un centro de atención médica a largo plazo o un suministro de medicamentos para 31 días si es residente de un centro de atención médica a largo plazo. Después de su primer suministro para 30 días, si no se encuentra en un centro de atención médica a largo plazo, o un suministro para 31 días si es residente de un centro de atención médica a largo plazo, no pagaremos por estos medicamentos, incluso si ha sido miembro del plan por menos de 90 días.

Si es residente de un centro de atención médica a largo plazo y necesita un medicamento que no está en nuestro formulario, o si su capacidad para obtener sus medicamentos es limitada pero pasó los primeros 90 días de membresía en nuestro plan, cubriremos un suministro de emergencia de ese medicamento para 31 días mientras solicita una excepción del formulario.

Si es un miembro actual que se está cambiando a un nivel de atención diferente, es probable que le receten medicamentos que no están en nuestro formulario o que su capacidad para obtener los medicamentos sea limitada. En estos casos, tiene que hablar con su médico/a sobre los tratamientos alternativos adecuados que se encuentran disponibles en nuestro formulario. Si no hay tratamientos alternativos adecuados en nuestro formulario, usted o su médico/a pueden solicitar una excepción y pedirle al plan que cubra el medicamento o quite las restricciones del medicamento. Mientras habla con su médico/a para determinar el curso de acción, usted es elegible para recibir un suministro del medicamento para 30 días, si está pasando de un centro de atención médica a largo plazo o de una hospitalización a su hogar, o un suministro de transición del medicamento para 31 días, si está pasando de una hospitalización o de su hogar a un centro de atención médica a largo plazo.

Para obtener más información, visite nuestro directorio de farmacias en línea donde se pueden realizar búsquedas en www.scanhealthplan.com o llame a Servicios para Miembros. Nuestra información de contacto aparece en las páginas de portada y contraportada.

Consulte la Evidencia de cobertura para obtener información sobre los costos en farmacias para cuidado a largo plazo (LTC) y farmacias fuera de la red.

Si recibe “Ayuda adicional”, su parte del costo para medicamentos con receta cubiertos puede variar según el nivel de “Ayuda adicional” que reciba. Para obtener más información sobre los costos de los medicamentos, consulte la Cláusula adicional LIS.

No pagará más de \$35 por un suministro para un mes, ni más de \$105 por un suministro para tres meses, de cada producto de insulina cubierto por nuestro plan, sin importar en qué nivel de gasto compartido se encuentre.

La mayoría de las vacunas para adultos de la Parte D están cubiertas por nuestro plan sin costo alguno para usted.

Formulario de SCAN Health Plan New Mexico

El formulario que comienza en la página 22 proporciona información sobre la cobertura de los medicamentos cubiertos por SCAN Health Plan New Mexico. Si no encuentra el medicamento en la lista, vaya al Índice que comienza en la página 59.

En la primera columna de la tabla aparece el nombre del medicamento. Los medicamentos de marca están en mayúscula (p. ej., JANUVIA) y los medicamentos genéricos aparecen en minúscula y cursiva (p. ej., *metformina*).

La información en la columna de Requisitos/Limitaciones indica si SCAN Health Plan New Mexico tiene algún requisito especial para la cobertura del medicamento.

- El símbolo [PA] indica que aplica una autorización previa.
- El símbolo [B vs D] indica que este medicamento puede estar cubierto por la Parte B o la Parte D de Medicare según las circunstancias. Es posible que tenga que enviar información describiendo el uso y entorno del medicamento para realizar la determinación.
- El símbolo [QL] indica que las cantidades suministradas son limitadas. Para ver el límite de cantidad para los medicamentos del formulario con límites de cantidad, vaya a la página 57.
- El símbolo [LD] indica que aplica una distribución limitada. Es posible que este medicamento con receta esté disponible solo en ciertas farmacias. Para obtener más información, consulte con su Directorio de farmacias o llame a Servicios para Miembros al 1-855-826-7226 (los usuarios de TTY deben llamar al 711) de 8:00 a. m. a 8:00 p. m., los 7 días de la semana, del 1 de octubre al 31 de marzo. Del 1 de abril al 30 de septiembre, el horario es de 8:00 a. m. a 8:00 p. m., de lunes a viernes (los mensajes recibidos en días festivos y fuera del horario de atención se responderán en el plazo de un día hábil). También puede visitar www.scanhealthplan.com.
- El símbolo [EDS] indica que este medicamento está disponible para un suministro extendido (p. ej., un suministro para más de 30 días) con el servicio de pedido por correo y en muchas farmacias minoristas.

Additional Covered Drugs

Your plan has additional coverage for the prescription drugs listed below if you are enrolled in one of these plans:

- SCAN Classic (HMO): Bernalillo, Sandoval Counties

These prescription drugs are not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for these drugs does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for these drugs.

ERECTILE DYSFUNCTION		
<i>sildenafil tabs 25mg, 50mg, 100mg (generic for Viagra)</i>	1	[QL] (4 tablets per 30-day supply with a maximum of 49 tablets per year)
PRESCRIPTION VITAMINS		
<i>cyanocobalamin inj 1000 mcg/ml (vitamin B12)</i>	1	
<i>ergocalciferol caps 1.25mg (50,000 units) (vitamin D2)</i>	1	
<i>folic acid tabs 1 mg (vitamin B9)</i>	1	

Medicamentos adicionales cubiertos

Su plan tiene cobertura adicional para los medicamentos con receta que se enumeran a continuación si está inscrito en uno de estos planes:

- SCAN Classic (HMO): Condados de Bernalillo y Sandoval

Estos medicamentos con receta normalmente no están cubiertos en un plan de medicamentos con receta Medicare. El monto que paga cuando surte una receta para estos medicamentos no cuenta para el costo total de sus medicamentos (es decir, el monto que paga no le ayuda a calificar para la cobertura catastrófica). Además de esto, si recibe ayuda adicional para pagar sus medicamentos con receta, no recibirá ayuda adicional para pagar estos medicamentos.
